

Are You Paying Too Much For Your Waste Disposal?

WASTE DISPOSAL is a necessary part of doing business. Every company requires it, but few give the associated fees a second thought. Even fewer are able to monitor those costs on an ongoing basis.

You have better things to do than analyze these kinds of expenses with a fine-tooth comb – which is exactly what we do for our clients each day. Over the past 20+ years, we have become the authority on service fees, industry standards, as well as the negotiation and implementation to optimize those costs.

- Our clients reduce their waste-related expenses by 28%
- Savings can be implemented without having to change vendors or switch equipment
- We continually review your invoices to help control your ongoing costs, and bring forth opportunities for additional savings
- It's more than just garbage – we audit all areas, including shredding and medical waste

Our services involve:

- **NO** risk – we either save you money or validate your existing expenses
- **NO** up-front cost – our fees are a portion of the shared savings for a limited time
- **NO** disruption – the process is easy and requires very little of your time
- **NO** obligation – you are in control and can say yes/no to any savings recommendation

We put money back into your pocket so you can:

- Add to your bottom line
- Hire additional staff
- Upgrade your facility
